PROFILE

Front-End Web and Software Developer with hands-on experience in developing and designing user interfaces and applications while incorporating a wide range of technologies and programming languages. Seeking the opportunity to utilize my technical skills to discover development solutions and strategies through innovative methods and technologies.

PROJECTS

2021 React Portfolio
An updated portfolio built with ReactJS.

Colleen ♥ Blake's Wedding Website
Full MERN stack CRUD application with Create React App front-end. Still in progress.

iFatale: Blogs with Positive Vibes
This was a full CRUD MERN Stack application I made with two other female developers.

Job Tracker
A collaborative full CRUD application developed using PHP back-end and React front-end.Made for tracking jobs

Animal Crossing Villager API App
In this project I used AJAX to make a request to an external Animal Crossing data source.

EXPERIENCE

Full-Stack Software Engineering Fellow

General Assembly | Remote
August 2020 - November 2020

Full-time, 420 hour software and web development immersive program with a focus on HTML, CSS, JavaScript, PHP, modern front-end frameworks, backend web applications and API development with modern programming languages and MVC patterns. GA also focused on collaboration in teams using agile development workflow and widely accepted collaboration practices via Github.

Ecommerce Administrator and Web Content Specialist

RMA Electronics Inc. |rmaelectronics.com | Hingham MA
January 2016 - July 2019

As the sole IT person in the company, I was responsible for the design, development and maintenance of RMA's E commerce website. As well as their social media marketing, SEO and user experience.
